Università Tor Vergata

# La Piattaforma Europea *Biofuels*

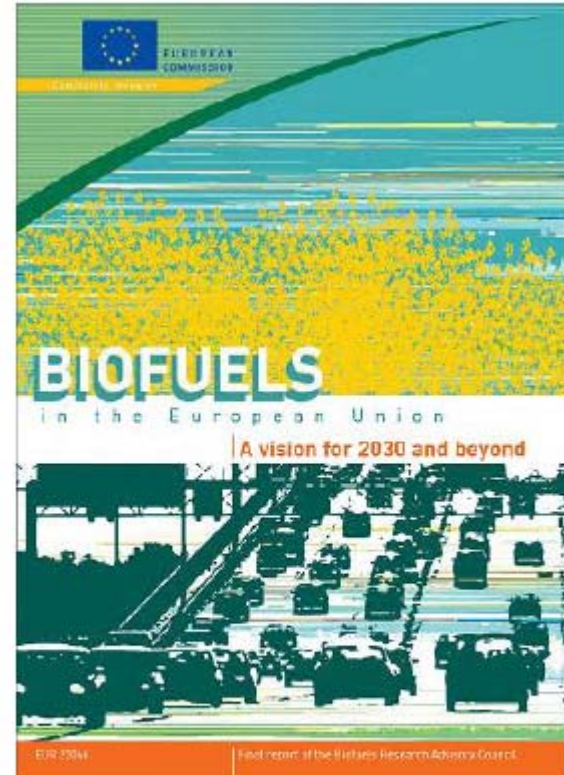

- The Mission of the European Biofuels Technology Platform is to contribute to the development of:
  - cost-competitive world-class biofuels technologies,
  - a healthy biofuels industry supplying sustainable biofuels in the European Union,

through a process of guidance, prioritisation and promotion of research, development and demonstration.

# La Visione 2030

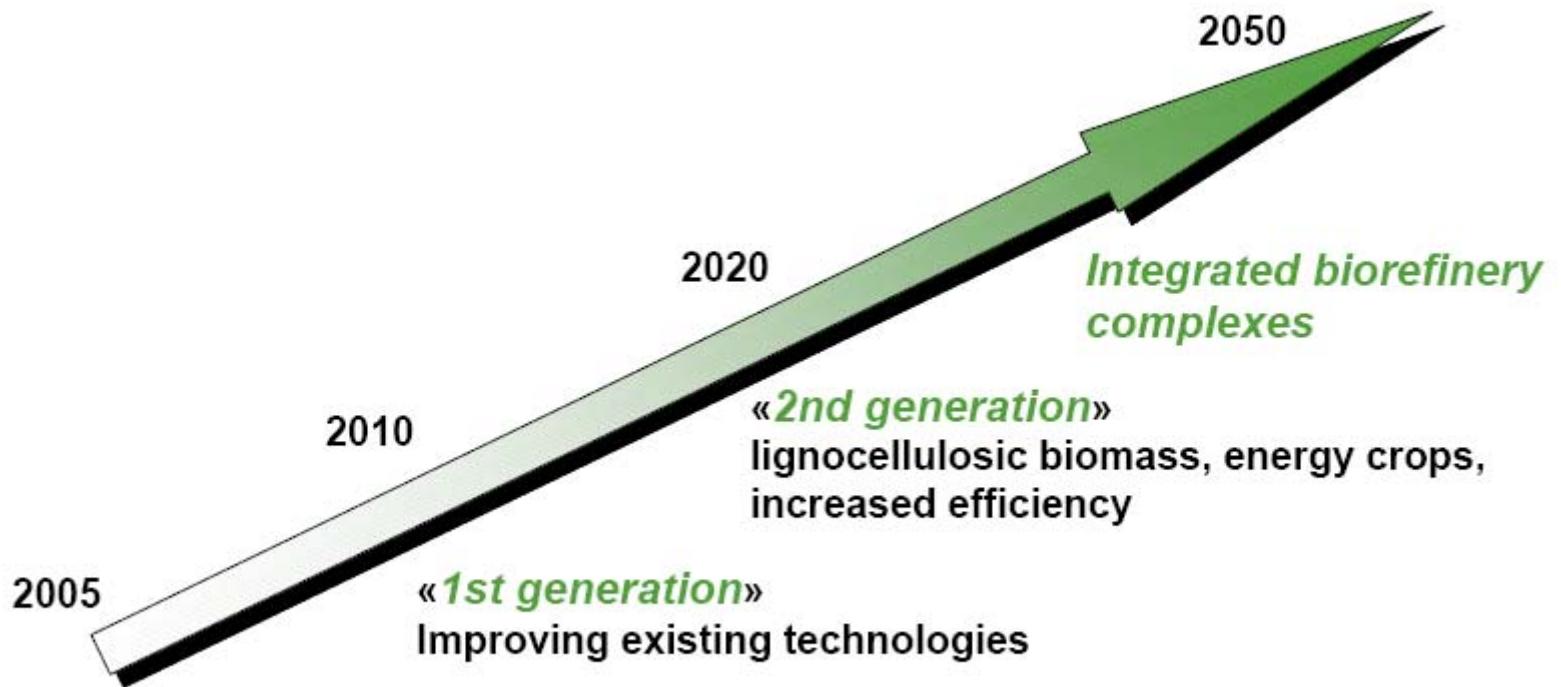

- By 2030, the European Union covers ***on fourth of its road transport fuel needs*** by clean and CO<sub>2</sub>-efficient biofuels.
- ***A substantial part is provided by a competitive European industry. This significantly decreases the EU fossil fuel import dependence.***
- Biofuels are produced using ***sustainable and innovative technologies; these create*** opportunities for biomass providers, biofuel producers and the automotive industry.

## SCHEMA PIATTAFORMA

**COMITATO DIRETTIVO**

**SEGRETERIA  
TECNICA**

**COMITATO SCIENTIFICO**

**Sezione  
Biomasse  
(GL1)**

**Sezione  
Conversione  
(GL2)**

**Sezione  
Uso  
(GL3)**

**Sezione  
Sostenibilità  
(GL4)**

**Sezione  
Economia  
(GL5)**
